

Almost everyone is connected somehow. We reach others using computers, tablets, smart phones and more. As time goes by, our electronics start running slow or become damaged. This is where TECH SMART comes in.

TECH SMART is here to fulfill the technological needs of those who need repairs, new products or technology consulting. What sets us apart is that we are a place where consumers and businesses come to get the knowledge, support and inspiration they need to truly understand how their tech products work.

Computer Sales/Repairs & Technology Consulting

HISTORY

Though TECH SMART officially opened its doors on Friday, November 1, 2013, the business was created in 2012 to provide affordable computer services to consumers as well as businesses. TECH SMART also provides LAN/WAN services for any size network. We are partnered with other computer companies that allow us to effectively handle a wide array of information technology services. This is what sets TECH SMART apart from the competition. Our goal is to become the number one technology service provider in Mississippi.
